

IMPLEMENT IDENTITY & LIFECYCLE  
MANAGEMENT - IN LESS THAN 30 DAYS

# Accelerated Identity™

Our cost-effective service streamlines and efficiently *accelerates* your identity and access management solution

## Identity Foundation

Establish a vital part of your operations to address business and IT requirements with Fischer's Accelerated Identity service. Once this IAM foundation is in place, you can progressively enhance it to drive more automation.

## Out of the Box

Leverage the power of pre-built templates and configurations using a solution that is based on our years of experience as well as industry best practices. The best part is that you save time and money on customizations and get to implementation *fast!*

## Scalable & Extensible

The foundation for Accelerated Identity is specifically designed to allow for seamless solution expansion - with clicks, not code - and without the hassle of starting from scratch. Rest assured that this solution will adapt to your business needs, no matter how they change over time.

## Rapid Time to Value

Accelerated Identity provides a simplified, intuitive interface that can be quickly deployed to achieve complete visibility and control over your organization's identities and access in no time. No lengthy and complicated implementations, just a powerful and robust solution that is built for speed and efficiency.

**Complete visibility and control over your organization's identities and access in less than 30 days!**
